Dear Food Vendor,

The City of De Pere and the State of Wisconsin have adopted a fire prevention code that has increased requirements for those who may be cooking at assembly events.

De Pere Fire Rescue will be enforcing these more stringent regulations on the vendors at any assembly function. We would like to recommend you review the following to assure that your operation will be allowed to continue during the event.

- 1) **Tents or Canopies** shall comply with *NFPA 1, 25.2 Tents*.
  - a. Adjacent tents shall be spaced to provide an area to be used as a means of emergency egress. There shall be a minimum of 10' between stake lines. A ten-foot clear width access must be provided as a corridor between rows of stands and at the ends. This dimension is in addition to any guy ropes and other protrusions into this space. Corridor rows must be arranged so as to provide a clear path to the means of egress. The layout is subject to the approval of the fire department. (NFPA 1, 25.2.3)
  - b. Tent stakes adjacent to any means of egress from any tent open to the public shall be railed off, capped, or covered so as not to present a hazard to the public. (NFPA 1, 25.1.3.3)
  - c. Any tent, canopy, or air-supported structure must be adequately roped, braced, and anchored to withstand the elements of weather. (NFPA 1, 25.2)
  - d. All tents must be properly labeled. **ALL** tents must be certified fire resistive (not just flame retardant), this includes any side curtains. Any fabric or other product not approved for use **may not be used**. (NFPA 1, 25.2.2.1)
  - e. Tent sides must provide proper egress from 2 sides. (NFPA 1, 25.1.3)

**2) Fire Hazards**

- a. No combustible products such as hay, straw, shavings, or corrugated board (cardboard) may be located within the fabric enclosure. All combustible materials that could create a fire hazard must be kept at least 10' from the structure. (NFPA 1, 25.1.5)
- b. Smoking shall not be permitted in any tent. Appropriate signage shall be posted. (NFPA 1, 25.2.4.2.1)

**3) Cooking Area**

- a. Food may not be cooked within 10' of a fabric assembly area where customers are seated to consume the food or watch entertainment. A 10' separation must be maintained between cooking equipment and other structures. This separation must consist of a 10' break between the fabric-covered areas. (NFPA 1, 25.2)
- b. No heating equipment may be closer than 5' to the side curtains.

**4) Electrical Cords (NFPA 1, 25.1.9)**

All electrical cords must be listed and approved for use.

All electrical cords must be in good condition and may not be spliced, extended beyond manufactured length, or multiplied beyond the current carrying capacity. Electrical cords should be secured so they do not constitute a tripping hazard. Generators must be properly grounded and at least 10' from any tents.

**5) Fire Extinguishers (NFPA 1, 25.2.5)**

- a. Any tent cooking or heating will be required to have a minimum of one 2A-10 B, C (approximately 5-pound) ABC dry chemical fire extinguisher.
- b. Any vendor using a deep fat fryer (over 1" of oil) must provide a type 'K' extinguisher.
- c. Extinguishers must have the receipt affixed to the back or be tagged for service within the past year. Vendors with heating equipment and a deep fat fryer are required to have an extinguisher for each type of cooking.
- d. Any vehicle using power and serving a product must have an above rated ABC fire extinguisher.

**6) Flammable Liquids and Gases (NFPA 1, 25.1.4)**

**Pressurized cylinders,**

- a. Any pressurized cylinders must be securely fastened in such a way that there is no possibility of tipping them over. (This includes all CO<sub>2</sub> and LPG tanks over 25#.)
- b. Propane tanks must be 5' from any tent, this includes adjacent tents. Propane cylinders may not encroach on the area between the cooking tent and the seating areas. Hoses may need to be longer depending on equipment placement of equipment within the tent.

**Gasoline containers,**

- a. Must have the proper covers and caps.
- b. Containers and vehicles must be at least 50' from any open flame devices

We would like to once again commend you for your commitment to safety and wish you success in this event. We are happy to assist you in assuring a safe event in any way possible. Should you have any questions or concerns please feel free to call me at any time at 920-339-4090.
